

# Don't be surprised by storm surge.

Where there's a cyclone there's storm surge. Coastal water can rise up like a flood. It's deceptive and dangerous. Be prepared: watch for sea water rising up in unusual places • listen for weather updates • be prepared to evacuate. Know what to do in a storm surge. To find out more about storm surge contact your local council or visit [www.disaster.qld.gov.au](http://www.disaster.qld.gov.au)
